

Information event of the CDG on Christian Doppler Laboratories as a webinar

Date: Tuesday, 18.06.2024, 13:00 - 14:30

Location: Online event (MS Teams)

Contents:

The Christian Doppler Forschungsgesellschaft (CDG) promotes long-term cooperation between innovative companies and outstanding scientists within the framework of Christian Doppler (CD) Laboratories. CD Laboratories conduct application-oriented basic research in cooperation with commercial partners, with scientific freedom for the scientists. Funding is provided jointly by the public authorities and the companies.

The webinar will provide you with information on the CD Laboratory funding model and how to apply.

Programme:

- **Information on the funding model and how to apply**
DI Mag. Brigitte Müller, Deputy Secretary General of the CDG
- **Experiences of a Laboratory Head: The CD Laboratory and cooperation with commercial partners**
Univ.Prof. DI Dr. Susanne Michelic, Head of the CD Laboratory for Inclusion Metallurgy in Advanced Steelmaking, Montanuniversität Leoben
- **Questions for the speakers**

Registration:

The event is aimed at scientists who are interested in the CDG's funding model or in submitting a CD Laboratory.

Please register at lisa.woegerbauer@cdg.ac.at. Registration deadline is **13.06.2024**.

The webinar will be held with Microsoft Teams. After your registration you will receive the link to the webinar.
